Quick Review

Pictures and diagrams are not just for looks. They help you understand the words. A good picture can show you what a sentence means.

PART 1 — READ

Read the passage. Then answer the questions.

Reading About Volcanoes

A volcano is a mountain with an opening at the top. Deep under the ground, hot melted rock is called magma. Sometimes the magma pushes up. When it bursts out of the top, the volcano erupts. The hot rock that flows out is called lava.

A book about volcanoes has helpful pictures. One picture shows a tall mountain with red lava and gray smoke coming out of the top. This picture helps you see what an eruption looks like. The bright colors show how hot the lava is.

Another page has a diagram. A diagram is a drawing with labels. The volcano diagram shows the inside of the mountain. It has a line to the word magma deep down. It has another line to the word lava at the top. The labels help you learn where each part is.
