

Finding Factors and Multiples

Name: _____ Date: _____ Score: _____ / 24

Q Quick Review

A **factor** of a number divides it evenly, with no remainder. To list all the factors of a number, look for pairs that multiply to give it — for 12, the pairs are 1×12 , 2×6 , and 3×4 . A **multiple** of a number is what you get when you skip-count by it, like 4, 8, 12, 16, . . . for the number 4. Every number is a **factor** of its own multiples. Knowing factors and multiples helps you with division, fractions, and finding patterns in numbers.

◇ **Example:** List all the factors of 24.

⇒ Look for every pair of numbers that multiplies to 24. Start at 1: $1 \times 24 = 24$. Then $2 \times 12 = 24$. Then $3 \times 8 = 24$. Then $4 \times 6 = 24$. Does 5 work? No, 24 is not divisible by 5. Next would be 6×4 , but we already have that pair, so we can stop. Collecting every number we found gives the full list of factors.

Answer: 1, 2, 3, 4, 6, 8, 12, 24

PRACTICE

Find the factors or multiples as each problem asks.

- | | | | |
|--------------------------------|-------|---|-------|
| 1. List all the factors of 12 | _____ | 11. List all the factors of 48 | _____ |
| 2. List all the factors of 16 | _____ | 12. List all the factors of 54 | _____ |
| 3. List all the factors of 18 | _____ | 13. List the first five multiples of 4 | _____ |
| 4. List all the factors of 20 | _____ | 14. List the first five multiples of 6 | _____ |
| 5. List all the factors of 28 | _____ | 15. List the first five multiples of 7 | _____ |
| 6. List all the factors of 30 | _____ | 16. List the first five multiples of 8 | _____ |
| 7. List all the factors of 36 | _____ | 17. List the first five multiples of 9 | _____ |
| 8. List all the factors of 40 | _____ | 18. List the first five multiples of 10 | _____ |
| 9. List all the factors of 42 | _____ | 19. List the first four multiples of 12 | _____ |
| 10. List all the factors of 45 | _____ | 20. Is 6 a factor of 48? | _____ |

◆ Word Problems

21. Mr. Lee wants to arrange 24 desks into equal rows. What are all the different numbers of rows he could make? _____
22. A baker sells cookies in packs of 6. List the first five amounts of cookies she could sell. _____
23. Sara is making party bags. She has 36 stickers and wants every bag to have the same number with none left over. What are all the bag sizes that work? _____
24. A clock chimes every 8 minutes. If it chimes at minute 8, list the next four times it chimes. _____

Answer Keys

Step-by-Step Explanations

- | | |
|--|---|
| <p>1. The factor pairs are 1×12, 2×6, and 3×4.</p> <p>2. The factor pairs are 1×16, 2×8, and 4×4.</p> <p>3. The factor pairs are 1×18, 2×9, and 3×6.</p> <p>4. The factor pairs are 1×20, 2×10, and 4×5.</p> <p>5. The factor pairs are 1×28, 2×14, and 4×7.</p> <p>6. The factor pairs are 1×30, 2×15, 3×10, and 5×6.</p> <p>7. The factor pairs are 1×36, 2×18, 3×12, 4×9, and 6×6.</p> <p>8. The factor pairs are 1×40, 2×20, 4×10, and 5×8.</p> <p>9. The factor pairs are 1×42, 2×21, 3×14, and 6×7.</p> <p>10. The factor pairs are 1×45, 3×15, and 5×9.</p> <p>11. The factor pairs are 1×48, 2×24, 3×16, 4×12, and 6×8.</p> <p>12. The factor pairs are 1×54, 2×27, 3×18, and 6×9.</p> | <p>13. Skip-count by 4: 4, 8, 12, 16, 20.</p> <p>14. Skip-count by 6: 6, 12, 18, 24, 30.</p> <p>15. Skip-count by 7: 7, 14, 21, 28, 35.</p> <p>16. Skip-count by 8: 8, 16, 24, 32, 40.</p> <p>17. Skip-count by 9: 9, 18, 27, 36, 45.</p> <p>18. Skip-count by 10: 10, 20, 30, 40, 50.</p> <p>19. Skip-count by 12: 12, 24, 36, 48.</p> <p>20. $48 \div 6 = 8$ with no remainder, so 6 is a factor of 48.</p> <p>21. The number of rows must be a factor of 24. The factors of 24 are 1, 2, 3, 4, 6, 8, 12, and 24.</p> <p>22. The amounts are multiples of 6: 6, 12, 18, 24, and 30.</p> <p>23. Each bag size must be a factor of 36: 1, 2, 3, 4, 6, 9, 12, 18, and 36.</p> <p>24. The chime times are multiples of 8: after 8 come 16, 24, 32, and 40.</p> |

Want Even More Practice? Check Out Our Other Nebraska NSCAS Test Books!

Nebraska NSCAS Grade 4 Math Preparation Bundle

18 full-length practice tests across three books
(5 + 6 + 7)

No repeated questions—maximum practice value!

18 Tests!
3 Books
One Bundle

Important: All our test books contain **unique, completely different tests** from each other! Each book offers fresh practice questions—no repeats!

5 Practice Tests

- ✓ 5 complete practice tests with detailed explanations
- ✓ Perfect foundation for NSCAS test preparation
- ✓ Builds confidence and test-taking skills
- ✓ High-quality questions aligned with state standards

Start your practice journey!

6 Practice Tests

- ✓ 6 complete practice tests with detailed explanations
- ✓ **Unique tests**—different from the 5 tests book
- ✓ Perfect for more practice after mastering 5 tests
- ✓ Builds even more confidence and test-taking skills
- ✓ Same high-quality questions aligned with standards

Take your practice to the next level!

7 Practice Tests

- ✓ 7 complete practice tests for maximum preparation
- ✓ **Unique tests**—different from 5 and 6 tests books
- ✓ The most comprehensive practice for Grade 4
- ✓ Ideal for students aiming for top scores
- ✓ Extensive practice builds mastery and confidence

Go all the way with comprehensive practice!
