

Multiplicative Comparisons

Name: _____

Date: _____

Score: _____ / 24

Q Quick Review

A **multiplicative comparison** tells how many **times** as many one amount is compared to another. When we say 12 is 4 **times as many** as 3, it means $4 \times 3 = 12$. The little word “**times**” is your clue to **multiply**. If you already know the total and one part, you can **divide** to find how many times bigger it is: since $12 \div 3 = 4$, we know 12 is 4 times as many as 3. So multiplying and dividing are two ways to look at the same comparison.

◇ **Example:** 24 is how many times as many as 6?

⇒ Let's think about what the question is really asking. We want to know how many groups of 6 fit inside 24. That is a division question: $24 \div 6 = 4$. We can check it the other way too — $4 \times 6 = 24$, which matches. So 24 is 4 times as many as 6.

Answer: 4 times

PRACTICE

Find each missing value. Multiply or divide to compare.

◆ Word Problems

21. Mia has 3 goldfish. Her brother has 4 times as many goldfish as Mia. How many goldfish does her brother have? _____
22. A tall oak tree is 56 feet tall. That is 8 times as tall as a young maple tree. How tall is the maple tree? _____
23. Liam collected 9 shells at the beach. His friend collected 6 times as many shells. How many shells did his friend collect? _____
24. A movie ticket costs 45 dollars for a family pack. A single ticket costs 5 dollars. How many times as much is the family pack compared to a single ticket? _____

Answer Keys

- | | |
|--------|---------------------|
| 1. 6 | 13. 48 |
| 2. 20 | 14. 75 |
| 3. 24 | 15. 9 |
| 4. 35 | 16. 66 |
| 5. 54 | 17. 70 |
| 6. 5 | 18. 12 |
| 7. 8 | 19. 91 |
| 8. 8 | 20. 120 |
| 9. 56 | 21. 12 goldfish |
| 10. 54 | 22. 7 feet |
| 11. 7 | 23. 54 shells |
| 12. 9 | 24. 9 times as much |

Step-by-Step Explanations

- | | |
|---|--|
| 1. 2 times as many as 3 means $2 \times 3 = 6$. | 15. $81 \div 9 = 9$, so 81 is 9 times as many as 9. |
| 2. 4 groups of 5 give $4 \times 5 = 20$. | 16. 6 times as many as 11 is $6 \times 11 = 66$. |
| 3. 8 times as many as 3 is $8 \times 3 = 24$. | 17. 5 groups of 14 give $5 \times 14 = 70$. |
| 4. 5 groups of 7 make $5 \times 7 = 35$. | 18. $96 \div 8 = 12$, so 96 is 12 times as many as 8. |
| 5. 6 times as many as 9 is $6 \times 9 = 54$. | 19. 7 times as many as 13 is $7 \times 13 = 91$. |
| 6. Divide to compare: $35 \div 7 = 5$, so 35 is 5 times as many. | 20. 8 groups of 15 make $8 \times 15 = 120$. |
| 7. $48 \div 6 = 8$, so 48 is 8 times as many as 6. | 21. "4 times as many" tells us to multiply: $4 \times 3 = 12$. Her brother has 12 goldfish. |
| 8. $72 \div 9 = 8$, so 72 is 8 times as many as 9. | 22. We know the total and the multiplier, so we divide: $56 \div 8 = 7$. The maple tree is 7 feet tall. |
| 9. 7 times as many as 8 is $7 \times 8 = 56$. | 23. "6 times as many" means multiply: $6 \times 9 = 54$. His friend collected 54 shells. |
| 10. 9 groups of 6 give $9 \times 6 = 54$. | 24. Divide to compare the two amounts: $45 \div 5 = 9$. The family pack costs 9 times as much. |
| 11. Work backward with division: $42 \div 6 = 7$. | |
| 12. $63 \div 7 = 9$, so the missing number is 9. | |
| 13. 4 times as many as 12 is $4 \times 12 = 48$. | |
| 14. 3 groups of 25 make $3 \times 25 = 75$. | |

Want Even More Practice? Check Out Our Other Nebraska NSCAS Test Books!

Nebraska NSCAS Grade 4 Math Preparation Bundle

18 full-length practice tests across three books
(5 + 6 + 7)

No repeated questions—maximum practice value!

18 Tests!
3 Books
One Bundle

Important: All our test books contain **unique, completely different tests** from each other! Each book offers fresh practice questions—no repeats!

5 Practice Tests

- ✓ 5 complete practice tests with detailed explanations
- ✓ Perfect foundation for NSCAS test preparation
- ✓ Builds confidence and test-taking skills
- ✓ High-quality questions aligned with state standards

Start your practice journey!

6 Practice Tests

- ✓ 6 complete practice tests with detailed explanations
- ✓ **Unique tests**—different from the 5 tests book
- ✓ Perfect for more practice after mastering 5 tests
- ✓ Builds even more confidence and test-taking skills
- ✓ Same high-quality questions aligned with standards

Take your practice to the next level!

7 Practice Tests

- ✓ 7 complete practice tests for maximum preparation
- ✓ **Unique tests**—different from 5 and 6 tests books
- ✓ The most comprehensive practice for Grade 4
- ✓ Ideal for students aiming for top scores
- ✓ Extensive practice builds mastery and confidence

Go all the way with comprehensive practice!
