

What Is a Rate?

Name: _____ Date: _____ Score: _____ / 24

Q Quick Review

A **rate** is a special ratio that compares two amounts measured in *different units*. “120 miles in 3 hours” and “\$6 for 4 pounds” are both rates. We often write a rate as a fraction with the units included, like $\frac{120 \text{ miles}}{3 \text{ hours}}$. The word **per** means “for each” and almost always points to a rate — miles *per* hour, dollars *per* pound, words *per* minute. A rate stays the same value even as the numbers grow, so $\frac{120}{3}$ describes the same speed as $\frac{40}{1}$.

◇ **Example:** A car travels 150 miles in 5 hours. Write this as a rate.

⇒ A rate compares two different units — here, miles and hours. We write it as a fraction with the labels: $\frac{150 \text{ miles}}{5 \text{ hours}}$. This is already a correct rate. If we want to compare it to other speeds easily, we can simplify it by dividing top and bottom by 5: $\frac{150 \div 5}{5 \div 5} = \frac{30 \text{ miles}}{1 \text{ hour}}$. That tells us the car covers 30 miles in each hour.

Answer: $\frac{150 \text{ miles}}{5 \text{ hours}} = 30 \text{ miles per hour}$

PRACTICE

Write each comparison as a rate. Simplify where shown.

- | | | | |
|-----------------------------|-------|---------------------------------|-------|
| 1. 60 miles in 2 hours | _____ | 11. 150 heartbeats in 2 minutes | _____ |
| 2. \$10 for 5 books | _____ | 12. \$32 for 4 pizzas | _____ |
| 3. 90 words in 3 minutes | _____ | 13. 200 feet in 8 seconds | _____ |
| 4. 48 cookies in 4 boxes | _____ | 14. 96 crayons in 6 packs | _____ |
| 5. 100 meters in 20 seconds | _____ | 15. 240 miles on 8 gallons | _____ |
| 6. \$24 for 6 tickets | _____ | 16. 63 flowers in 9 vases | _____ |
| 7. 72 pages in 8 days | _____ | 17. \$54 for 9 hours of work | _____ |
| 8. 36 apples in 3 bags | _____ | 18. 132 students on 4 buses | _____ |
| 9. 45 minutes for 5 songs | _____ | 19. 175 miles in 5 hours | _____ |
| 10. 84 chairs in 7 rows | _____ | 20. 108 beads in 12 bracelets | _____ |

◆ Word Problems

21. A printer prints 250 pages in 5 minutes. Write this as a rate in pages per minute. _____
22. A grocery store sells 5 pounds of bananas for \$3. Write this as a rate. (You may leave it as a fraction.) _____
23. A cyclist rides 84 miles in 6 hours. Write this as a rate in miles per hour. _____
24. A faucet fills a tub with 120 liters of water in 8 minutes. Write this as a rate in liters per minute. _____

Answer Keys

- | | |
|--|---|
| <p>1. 30 mi/h</p> <p>2. \$2 per book</p> <p>3. 30 words/min</p> <p>4. 12 cookies/box</p> <p>5. 5 m/s</p> <p>6. \$4 per ticket</p> <p>7. 9 pages/day</p> <p>8. 12 apples/bag</p> <p>9. 9 min/song</p> <p>10. 12 chairs/row</p> <p>11. 75 beats/min</p> <p>12. \$8 per pizza</p> | <p>13. 25 ft/s</p> <p>14. 16 crayons/pack</p> <p>15. 30 mi/gal</p> <p>16. 7 flowers/vase</p> <p>17. \$6 per hour</p> <p>18. 33 students/bus</p> <p>19. 35 mi/h</p> <p>20. 9 beads/bracelet</p> <p>21. 50 pages per minute</p> <p>22. $\frac{\\$3}{5 \text{ lb}}$, or \$0.60 per pound</p> <p>23. 14 miles per hour</p> <p>24. 15 liters per minute</p> |
|--|---|

Step-by-Step Explanations

- | | |
|--|---|
| <p>1. Divide $60 \div 2 = 30$, so the rate is 30 miles per hour.</p> <p>2. Divide $10 \div 5 = 2$, so each book costs \$2.</p> <p>3. Divide $90 \div 3 = 30$, giving 30 words per minute.</p> <p>4. Divide $48 \div 4 = 12$, so each box has 12 cookies.</p> <p>5. Divide $100 \div 20 = 5$, giving 5 meters per second.</p> <p>6. Divide $24 \div 6 = 4$, so each ticket costs \$4.</p> <p>7. Divide $72 \div 8 = 9$, giving 9 pages per day.</p> <p>8. Divide $36 \div 3 = 12$, so each bag holds 12 apples.</p> <p>9. Divide $45 \div 5 = 9$, giving 9 minutes per song.</p> <p>10. Divide $84 \div 7 = 12$, so each row has 12 chairs.</p> <p>11. Divide $150 \div 2 = 75$, giving 75 beats per minute.</p> <p>12. Divide $32 \div 4 = 8$, so each pizza costs \$8.</p> <p>13. Divide $200 \div 8 = 25$, giving 25 feet per second.</p> | <p>14. Divide $96 \div 6 = 16$, so each pack has 16 crayons.</p> <p>15. Divide $240 \div 8 = 30$, giving 30 miles per gallon.</p> <p>16. Divide $63 \div 9 = 7$, so each vase has 7 flowers.</p> <p>17. Divide $54 \div 9 = 6$, giving \$6 per hour.</p> <p>18. Divide $132 \div 4 = 33$, so each bus carries 33 students.</p> <p>19. Divide $175 \div 5 = 35$, giving 35 miles per hour.</p> <p>20. Divide $108 \div 12 = 9$, so each bracelet uses 9 beads.</p> <p>21. A rate compares pages to minutes: $\frac{250}{5}$. Dividing $250 \div 5 = 50$ gives 50 pages per minute.</p> <p>22. The rate is $\frac{\\$3}{5 \text{ lb}}$. Dividing $3 \div 5 = 0.60$ shows the bananas cost \$0.60 per pound.</p> <p>23. The rate compares miles to hours: $\frac{84}{6}$. Dividing $84 \div 6 = 14$ gives 14 miles per hour.</p> <p>24. The rate is $\frac{120}{8}$. Dividing $120 \div 8 = 15$ gives 15 liters per minute.</p> |

Want Even More Practice? Check Out Our Other California CAASPP Test Books!

California CAASPP Grade 6 Math Preparation Bundle

18 full-length practice tests across three books
(5 + 6 + 7)

No repeated questions—maximum practice value!

18 Tests!
3 Books
One Bundle

Important: All our test books contain **unique, completely different tests** from each other! Each book offers fresh practice questions—no repeats!

5 Practice Tests

- ✓ 5 complete practice tests with detailed explanations
- ✓ Perfect foundation for CAASPP test preparation
- ✓ Builds confidence and test-taking skills
- ✓ High-quality questions aligned with state standards

Start your practice journey!

6 Practice Tests

- ✓ 6 complete practice tests with detailed explanations
- ✓ **Unique tests**—different from the 5 tests book
- ✓ Perfect for more practice after mastering 5 tests
- ✓ Builds even more confidence and test-taking skills
- ✓ Same high-quality questions aligned with standards

Take your practice to the next level!

7 Practice Tests

- ✓ 7 complete practice tests for maximum preparation
- ✓ **Unique tests**—different from 5 and 6 tests books
- ✓ The most comprehensive practice for Grade 6
- ✓ Ideal for students aiming for top scores
- ✓ Extensive practice builds mastery and confidence

Go all the way with comprehensive practice!
