

# Evaluating Mediums and Formats

## Quick Review

Different mediums do different work. Compare what a chart, article, podcast, map, or video can show clearly and what each one may leave out.

### PART 1 — READ

Read the passage. Then answer the questions.

#### Podcast or Data Dashboard?

A city transportation office releases two explanations of bus delays. The podcast features interviews with riders, drivers, and a dispatcher describing how delays affect daily routines.

The data dashboard shows delay times by route, hour, weather, and construction zone. Users can sort the data and compare one route with another.

The podcast is strong at showing human consequences: a nurse missing a shift change, a student arriving late to class, a driver explaining a detour. The dashboard is strong at showing patterns that no single interview can prove.

Neither format is complete alone. Together, they help the public understand both the scale of the problem and the way it feels to live with it.

### Explanations

1. B	The correct evidence directly proves the stated inference rather than merely mentioning the same topic.
2. A	The correct answer covers the whole passage, while the distractors are too narrow, too extreme, or unsupported.
3. C	The context around the word points to this meaning in this passage.
4. D	The correct answer explains the role the detail plays in the development of the text.

8. D	This detail is specific enough to support analysis in a written response.
9.	<b>Answer:</b> A strong response quotes or closely paraphrases: Users can sort the data and compare one route with another. Then it explains how that detail proves the inference instead of only repeating it. Use exact wording from the text or task, then explain your reasoning.
10.	<b>Answer:</b> A strong response states: A podcast and a dashboard explain the same bus-delay issue differently, with one emphasizing lived experience and the other revealing patterns. It supports the statement with a precise detail such as: Users can sort the data and compare one route with another. Use exact wording from the text or task, then explain your reasoning.
